

The Most Productive Tool You Will Ever Use!

MAPCON

MAPCON

The **MAPCON® System** includes integrated Security, Work Requests and Work Orders, PM Work Order Generation, Human Resources and Timecards, Equipment Management including Meters & Gauges, Failure Analysis, Calibrations, Complete Inventory Tracking, Location Management, Vendors and Manufacturers, Purchase Requisitions and Purchase Orders, Receiving and Reconciling, Safety Procedures, Service Contracts, and Project tracking. Create your own lookups with the Lookup Generator, or create your own reports with the MAPCON Report Generator!

**PocketMaint
Batch
PDA Module**

Reduce or eliminate paperwork. Create work orders on-the-fly! Add parts and/or time to work orders. Walk inspection routes and input your findings while standing next to the equipment. Tracks meter and gauge readings, and allows you to input physical inventory counts.

**PocketMaint
Wireless
PDA Module**

Reduce or eliminate paperwork. Create work orders or purchase requisitions on-the-fly! With wireless, you can review the entire work history of any asset while standing next to the machine. Run reports on any area of the system for quick information at your finger tips. Create your own lookups to find info fast!

**iMapcon
Internet/Intranet
Module**

Create work requests from any computer terminal using Internet Explorer. Check inventory availability and location. Create a Purchase Requisition to order parts. Browse equipment information, work orders, purchase orders, or vendor and manufacturer information from anywhere in the facility.

**ScanMaint
Barcode
Module**

Design your own barcode labels. Scan part numbers for issuing, receiving, or when performing inventory cycle counts. Scan equipment to create work orders. Barcode scanning helps eliminate errors, making data entry fast and accurate!

**Standard
Interface
Modules**

MAPCON will interface with external inventory and purchasing systems such as BAAN™, J.D. Edwards™, Great Plains™, Lawson™, plus many others. Customize the interface to meet your needs, and eliminate dual entry in two places. Keep all your systems up to date quickly and easily.

◆ **World Class Customer Service!** When you use MAPCON® you join our family of users that has been growing for over 20 years. Each of our users is treated like a valuable member of the Mapcon Team.

◆ **Easily create your own reports and graphs.** Optionally generate results into Excel. E-mail reports, work orders, requisitions and purchase orders to anyone.

◆ **The ultimate in customizability!** MAPCON allows you the flexibility to modify data entry fields, screens and menus to meet your company's needs.
